www.ishc-cihe.com

Enhancing industry development through innovative technologies and diverse product offerings

Heating solutions

Boilers, Heat pumps, Wall-hung boiler, Air conditioning, Water heaters, Electric heaters, Floor heating, Radiators, Fan coil units, Smart heating, Industrial heating

Energy solutions

Integrated energy management, Renewable energy, Energy and heat storage, Hydrogen, Solar energy, Biomass, Meters & measuring

Water solutions

Water pumps, Pipes, tubes & fittings, Valves, Water supply & drainage

Comfort solutions

Five-constant system, Multi-coupled system, Fresh air, Water-purification, Air-purification

Installation & intelligence

Smart home, Sensors & controllers, Software & digitisation, Tools & fasteners, Repair & detection

Exhibitor feedback

"ISH China & CIHE brings together outstanding companies, industry professionals and distributors from both China and abroad. Over the years attending the show, we've noticed its expansion from traditional heating products to multi-energy hybrid heating today, and the show now occupies eight halls, attracting countless high-quality customers for us. At the 2025 edition, we look forward to showcasing even more new products at the fair."

Mr Robbie Han, Product Department, Product Director, NORITZ (CHINA) Co Ltd

"Midea has been a regular exhibitor at ISH China & CIHE for the last few years. The event itself has grown significantly, drawing more exhibitors and visitors each edition. At the fair, we were approached by a number of industry experts, distributors and visitors who demonstrated a deep understanding of the field."

Mr Lu Ming, ATW Heat Pump Sales Director, Domestic Sales Company, Midea Building Technology

Leading brands from the previous edition (partial list)

*Brands listed in alphabetical order

International and regional pavilions and areas exhibit cutting-edge products

Overseas Area

As the preferred launch platform for global brands, ISH China & CIHE continuously provides HVAC companies from around the world with opportunities to enter and expand in the Asian and Chinese markets. With the exhibiting platform, the show assists participating companies to nurture developmental potentials, promoting the growth of the international HVAC industry.

German Area

Over the years, the German area has consistently made appearances at the show with positive feedback across the board. This continuous presence has supported German high-quality HVAC companies and products in making their mark on the Chinese HVAC market.

Canadian Pavilion

With the support of the Canadian Embassy in China, the Canadian Pavilion, which made its debut at the 2023 edition, introduced advanced manufacturing technology and case studies from Canada to the Chinese market. Their participation has broadened the selection of heating equipment, products and applications for the local industry.

Italian Pavilion

As a country with a long and rich history in HVAC product development and manufacturing experience, the Italian Pavilion is dedicated to promoting the exchange and development between Chinese and Italian HVAC companies and markets.

Zhejiang Pavilion

As one of China's manufacturing powerhouses, the Zhejiang Pavilion, with the support of the provincial government, has showcased a range of HVAC products and related accessories. This initiative has received widespread support and high praise from the local authorities, participating companies and other stakeholders.

Water Pump Area

Water pumps are an essential component of HVAC and comfortable home systems, the Water Pump Area was prominently featured at the 2024 edition, which gathered several leading brands from both domestic and international markets. Moving forward, the area will continue to act as a one-stop sourcing platform for all categories of water pumps.

Clean Energy District Heating Area

Co-organised with CDHA-China District Heating Association, the area will showcase the latest innovations in clean energy technologies and explore the development of clean energy applications in district heating.

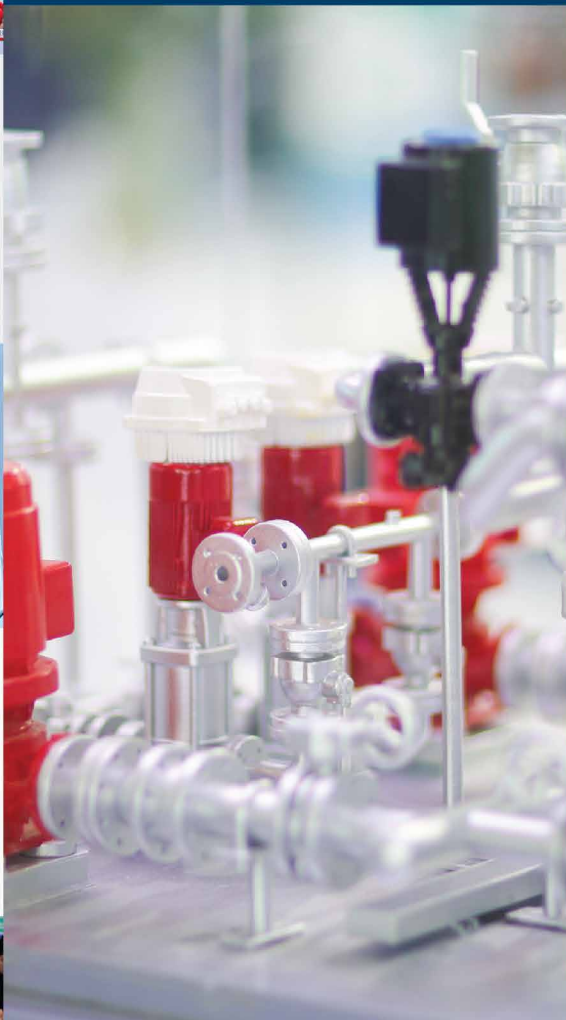

Association feedback

"ISH China & CIHE has been rooted in China for over two decades, and has attracted the support of a broad cross-section of the industry. From the Association's perspective, our member companies across China turn out in full force each year, including those from places like Lanzhou, Tangshan, Tianjin and Urumqi, so it can really be considered an important industry event."

Ms Niu Xiaohua, Deputy Secretary, China District Heating Association

"The show is a key platform for showcasing new HVAC technologies and products, including the energy storage solutions that are driving the industry's advancement. As expected, the show floor was well organised and drew a strong crowd of visitors."

Mr Song Weimin, Secretary of Party Branch, Vice President & Secretary General, China Construction Metal Structure Association

"I have been joining the show for nearly twenty years. It is fair to say that from its inception to the present edition, the exhibition has played an indispensable role in our industry. The influence of the show extends throughout China, providing an excellent platform for companies to enhance their brand recognition. Based on the feedback from our committee and members, there is a high level of satisfaction expressed towards the show."

Mr Wang Qi, Director, Gas Heating Specialty Committee of Gas Branch Society of China Civil Engineering Society

"We have collaborated with ISH China & CIHE for many years and have organised numerous high-quality concurrent forums at the show. Together with the organisers, we have jointly contributed to the expansion of the heat pump sector at the exhibition. We wish to further promote the applications of heat pumps in the industrial sector, thereby helping to achieve the Chinese government's targets for green transformation and environmental strategy."

Mr Zhao Hengyi, Vice Chief Supervisor of China Energy Conservation Association and Executive Deputy Secretary General of the Heat Pump Committee, CECA

"ISH China & CHIE is an ideal platform for exploring innovations, particularly in district heating, which is a significant interest of mine. The event's international scope is vital, offering a platform for comparing global perspectives, such as the Finnish renewable energy strategies to the strategies being employed in China. Such international exchanges are crucial for broadening understanding across different regions."

Ms Alessia Del Vasto, Senior Policy Officer, European Heat Pump Association

iHVAC China International HVAC Congress

The 2024 edition of “iHVAC – International Conference of the Future Development of Low Carbon Energy” was organised in collaboration with the CDHA (China District Heating Association), the Finnish Embassy in China, the Canadian Embassy in China, the European Heat Pump Association, Finnish Energy Club, as well as the Heat Pump & Thermal Storage Technology Center of Japan. At the conference, representatives from governments, trade associations, academies and leading brands gathered to discuss the latest trends in the future development of low carbon energy.

Over 60 fringe forums and seminars, along with more than 100 events, were held during the show. Invited speakers are from all corners of the HVAC industry. This assembly of industry players will facilitate a high level of idea exchange, helping the industry to achieve the goals of reducing carbon emissions and increasing sustainable development.

iHVAC – The 1st International Heat Technology Forum

iHVAC – Workshop on Urban Heating Equipment Renewal and Obsolete Pipe Network Renovation Seminar

iHVAC – “Leveraging Heat Pumps for New Quality Productive Forces” Technology Forum and the “2023 China Heat Pump Industry Development Yearbook” Launch Ceremony

iHVAC – Housing Construction Industry Ultra-Low-Energy Buildings Summit Forum

“Thermal technology is a crucial component of our future energy systems, closely tied to the construction of zero-carbon heating systems and essential to China’s dual carbon goals. In the field of scientific and technological development, we have always emphasised the approach of going global in order to attract foreign investment. Holding the forum concurrently with the show represents a promising start and an initial attempt in this direction.”

**Mr Xia Jianjun, Associate Professor,
Tsinghua University**

“I’ve definitely taken note of iHVAC summit’s increasing influence in recent years, which you can see from the calibre of companies participating across the various forums. The push for ‘dual carbon’ reductions has the heating industry braced for significant change, and ISH China & CIHE’s conferences and product showcases help companies to better understand the latest heating trends.”

**Mr Fu Lin, Professor, Chief Researcher,
School of Architecture, Tsinghua
University**

Visitor business nature

- Construction companies, contractors
- Architectural design academies
- Architects, interior designers
- Property developers
- Estate management companies
- Agents, distributors, wholesalers
- Importers, exporters, traders
- Solution integrators, installers
- Manufacturers
- Commercial end-users
- Schools
- Hospitals
- Hotels and entertainment facilities
- Service providers
- Thermo-electric companies
- Heating companies
- Electric power plants
- Industrial end-users
- Governments, associations
- Media
- Others

Visitor feedback

"Our association has arranged a delegation to the show, including chief engineers from design institutes across the Beijing-Tianjin-Hebei region, Heilongjiang, Jilin, Liaoning and Shanxi provinces, as well as various northern regions. The show has highlighted some innovative concepts and emerging trends pertinent to the ongoing energy revolution. In the coming edition, we are planning to invite even more chief engineers."

Mr Zhang Jie, Chief Engineer, Beijing Institute of Architectural Design / Chairman, The Building Environment and Energy Application Branch of China Engineering & Consulting Association

"I believe that ISH China & CHIE is one of the most influential and professional events in the industry, representing a comprehensive assembly of resources from the entire heating and HVAC sector. The show also aligns closely with China's 'dual carbon' goals, which provides a valuable opportunity for exchanging ideas with industry peers on cutting-edge topics and discuss the future of product technologies, such as building science, green and digital technology."

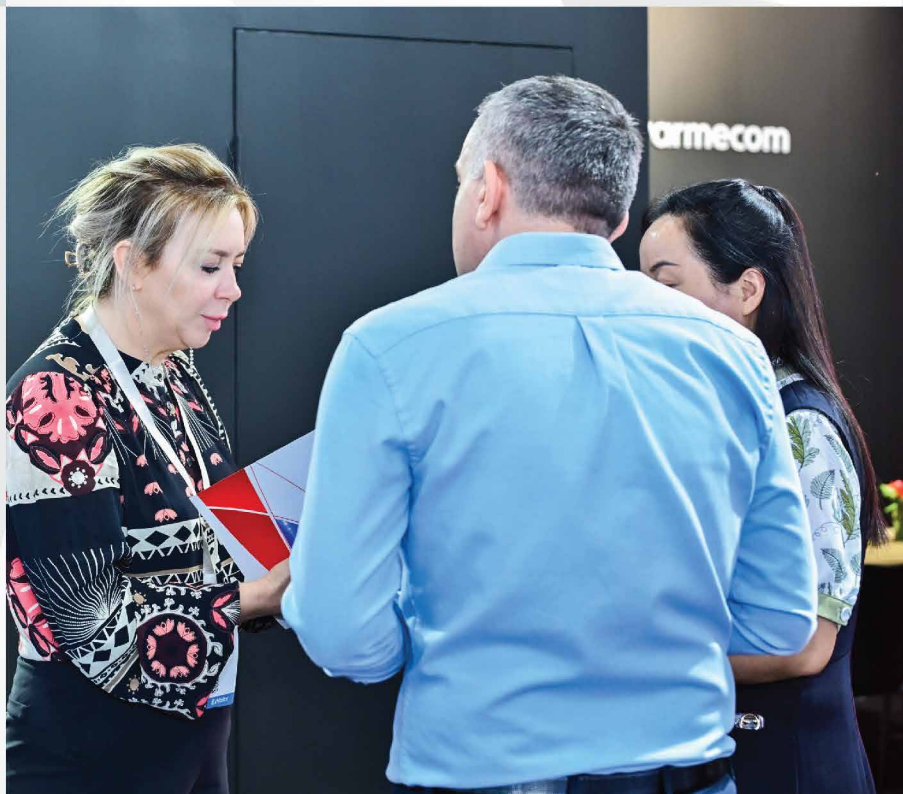

Mr Xu Junjie, Tengyunzhahui General Manager, Golden Resources Group

"We have come to the fair looking for new suppliers and partnership opportunities in China's vast HVAC market. I've already approached several exhibitors for product quotations, and I'm excited about the prospect of securing some deals with them. The way the product categories are organised makes it convenient to navigate the exhibition halls and find my targeted exhibitors."

Mr Asheesh Jha, Founder & CEO, EcoTech Solutions

"Our business specialises in manufacturing pipes and we've come here to learn about the latest market trends and technologies in our field. We are also exploring possibilities to collaborate with local enterprises to enter Chinese market. We believe that the fair is well organised, as each exhibition hall has a specific theme or category, which makes it more time efficient for me. I have also been to the ISH fair in Frankfurt before, and I think that this fair is just as impressive."

Mr Sahil Garg, International Business Director, Rhinox Piping Solutions

Professional industry support

Co-organisers

- CDHA – China District Heating Association
- China Council for the Promotion of International Trade Construction Industry Sub-council
- Heating and Radiator Committee of China Construction Metal Structure Association
- Gas Heating Application Speciality Committee of China Civil Engineering Society
- Floor-heating Committee of China Construction Metal Structure Association
- China Construction Metal Structure Association Indoor Climate Association
- Heat Pump Industry Committee of China Energy Conservation Association
- China Boiler and Boiler Water Treatment Association
- China International Exhibition Center Group Corporation
- Zhejiang Growin International Exhibition & Convention Co Ltd

Organisers

- Messe Frankfurt (Shanghai) Co Ltd
- CIEC GL events (Beijing) International Exhibition Co Ltd

Domestic supporters

- China Real Estate Chamber of Commerce
- China Furniture Decoration Chamber of Commerce
- China Furniture Decoration Chamber of Commerce, Furniture & Decoration Committee
- Plumbing Facilities Committee of China Construction Metal Structure Association
- Water Supply and Wastewater Association of China Architectural Society
- China Association of Building Energy Efficiency – Thermal Power and New Energy Industry Branch
- China Ventilation Technology Management Center
- Journal of HA&VC

Overseas supporters

- BDH – Federation of German Heating Industry
- DBDH – Danish Board of District Heating
- EHI – The Association of the European Heating Industry
- FGK – Association of Air Conditioning and Ventilation in Buildings
- WPC – World Plumbing Council

Messe Frankfurt is the organiser of the world's leading international ISH trade fair in Frankfurt, Germany. Messe Frankfurt (Shanghai) Co Ltd and CIEC GL events (Beijing) International Exhibition Co Ltd joined forces in China to organise ISH China & CIHE in Beijing, one of the region's biggest HVAC and sanitation exhibition. Together with Shanghai Zhanye Exhibition Co Ltd, they also launched ISH Shanghai & CIHE. The two shows held in Shanghai and Beijing complement each other by satisfying the demands of exhibitors from all areas of focus, including brand promotion and market expansion.
