# Three decades specialising in the HVAC sector

## Promoting diverse trade opportunities in Installation, Sanitation and Heating

As part of the Messe Frankfurt ISH global network, ISH China & CIHE – China International Trade Fair for Heating, Ventilation, Air-Conditioning, Sanitation & Home Comfort System made its debut in 1996. For 30 years, the show has played an active role in supporting progress and innovation across the HVAC sector. Today, ISH China & CIHE stands as the leading annual event for the entire HVAC and home comfort system supply chain, serving as the industry's preferred platform for global brand launches.

Throughout this period, China's manufacturing industry has made significant advancements in technology, quality, and sustainability, strengthening the reputation of the "Made in China" label. In the HVAC sector, "Intelligent Manufacturing in China" products are steadily gaining a dominant market position as a result of their consistent quality and technical strengths. Meanwhile, the industry is placing greater emphasis on advanced installation technologies and tools.

ISH China & CIHE 2026 will align with market needs by showcasing comprehensive solutions, future technology trends, and new development opportunities across five key areas: "Heating solutions", "Energy solutions", "Water solutions", "Comfort solutions" and "Installation & intelligence".

### 2025 fair facts

**1,030**  
exhibitors from  
around the world

**102,000**  
sqm exhibition  
space

**77,468**  
professional  
visitors

**59**  
countries and  
regions (visitors)

Over **100**  
industry and mass  
media partners

Over **100**  
industry events

## Raising standards in installation technology

As HVAC technology advances, installation and construction demand higher levels of precision and quality, which in turn enhance user experience, improve energy efficiency and strengthen product competitiveness. As a result, advanced installation tools and standardised skill requirements have become indispensable.

Together with various industry associations, the fair's 2026 edition will present a series of activities and competitions to support the diversification of solutions and promote the development of installation technology throughout the sector.

## A complete range of solutions for industry advancement

### Heating solutions

Boilers, Heat pumps, Wall-hung boilers, Air conditioning, Water heaters, Electric heaters, Floor heating, Radiators, Fan coil units, Smart heating, Industrial heating

### Energy solutions

Meters & measurement, Integrated energy management, Renewable energy, Energy and heat storage, Hydrogen, Solar energy, Biomass, Meters & measuring

### Water solutions

Water pumps, Pipes, Tubes & fittings, Valves, Water supply & drainage

### Comfort solutions

Five-constant system, Multi-coupled system, Fresh air, Water-purification, Air-purification

### Installation & intelligence

Smart home, Sensors & controllers, Software & digitisation, Tools & fasteners, Repair & detection

## Leading brands from previous editions\*

## Exhibitor feedback

"ISH China & CIHE, as the leading exhibition in the HVAC sector nationwide, offers an outstanding platform for communication, fostering technological breakthroughs and development across the industry. This event enables us to provide more solutions for users globally, all with the goal of elevating China's heating sector to new heights."

**Mr Cheng Liu, User Experience Director, Haier Home Central Air Conditioning**

"ISH China & CIHE is an exhibition we commit to attend each year, demonstrating its importance in the industry. The vibrant atmosphere we experienced at the show highlighted its value. We look forward to collaborating with the show to foster the growth and prosperity of the industry."

**Mr Ronghua Chen, CEO, Sunrain Group Co Ltd**

"Participating in ISH China & CIHE is an important part of our business strategy. The event allows us to showcase our products and technologies, gather valuable market insights, and engage directly with customers. It's also an opportunity to address specific requests from Chinese customers."

**Mr Vito Poletto, Burner General Manager, Riello S.p.A**

\*Partial list, in alphabetical order

# Global opportunities, international insights

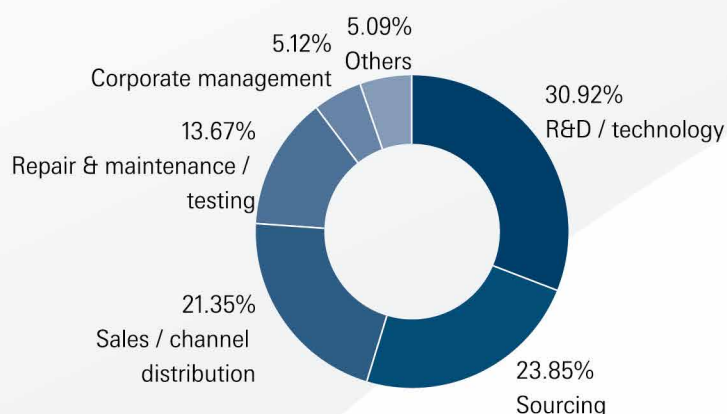

Chinese products are now widely recognised for their quality, and the country has established itself as a strong competitor internationally. By leveraging the global network of the ISH brand and benefiting from China's ongoing expansion of visa-free access, the show continues to see notable growth in international participation.

The 2025 edition welcomed 77,468 attendees from 59 countries and regions, including Bangladesh, Canada, Ethiopia, Germany, Japan, Kazakhstan, Mongolia, Pakistan, Russia and South Korea.

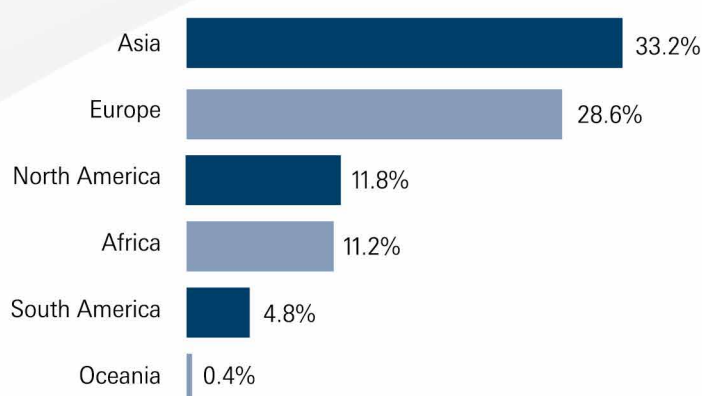

## Visitor business profile

- Construction companies, contractors
- Architectural design academies
- Architects, interior designers
- Property developers
- Estate management companies
- Agents, distributors, wholesalers
- Importers, exporters, traders
- Solution integrators, installers
- Manufacturers
- Commercial end-users
- Schools
- Hospitals
- Hotels and entertainment facilities
- Service providers
- Thermo-electric companies
- Heating companies
- Electric power plants
- Industrial end-users
- Government, associations
- Media
- Others

## Visitors by job function (2025 edition)

## Visitors by origin (2025 edition)

## Follow our social media channels Keeping you connected to industry trends

With a wide range of dedicated social media accounts, ISH China & CIHE makes it easy for you to stay informed of market trends and exhibition highlights, connect with peers, and follow industry developments even beyond the event itself.

## Visitor feedback

"ISH China & CIHE is filled with engaging content and highlights. We saw a wide range of energy-saving and consumption-reducing products designed for the modern demands of hospital construction, including air-source heat pumps and innovative manifolds. These advancements will facilitate progress in green development within hospital construction. We look forward to the exhibition continuing to introduce more cutting-edge technologies and equipment for future hospital construction and renovation, shaping trends in energy-efficiency and promoting wider use of related products."

**Mr Jianwei An, President, Green Medical Buildings and Building Materials Branch of National Association of Health Industry and Enterprise Management**

"We are privileged to meet exceptional manufacturers and professional peers here. ISH China & CIHE has offered us an outstanding platform for product showcasing and communication, enabling us to witness the dynamic growth and innovative spirit in the heating and energy-saving sector. From a professional design perspective, we are eager to explore products such as energy-saving heating equipment and high-efficiency energy utilisation devices, along with discussions on cutting-edge technologies."

**Mr Yuanfang Shi, President, Comprehensive Institute 3 of China Electronics Engineering Design Institute Co Ltd**

"The atmosphere here is very welcoming, and the exhibitors have been friendly to all international visitors. I highly recommend this exhibition to anyone looking to explore new products, technologies, and business partnerships."

**Mr Khan Samiullah, Manager, Noshair Cooling Centre (Pakistan)**

## Association feedback

"Since its debut in 1996, ISH China & CIHE has emerged as a key event for Asia's heating industry, offering a platform for companies to showcase their latest technologies. It also serves as a platform for communication and learning. Various forums, business discussions, and technical exchanges have been organised to enhance collaboration within and beyond the industry, drawing the interest of government decision-makers and policy researchers."

**Ms Rong Liu, Deputy Director of China District Heating Association (CDHA), Deputy Director of Heating Technology Professional Committee of the China District Heating Association (CDHA), Professorate Senior Engineer**

"For many years, ISH China & CIHE has been a key event in the heating sector in Asia, continually growing in value while highlighting emerging trends and the industry's vitality. The fair has effectively fostered cooperation between supply and demand, continually advancing the heating industry and the new energy heating sector. It not only maintains the high standards of previous editions but also embraces new strides in internationalisation, specialisation and innovation. This underscores the exhibition's essential role in enhancing industry communication, promoting technological innovation, and supporting decision-making."

**Mr Hengyi Zhao, Vice Chief Supervisor of China Energy Conservation Association and Secretary General of the Heat Pump Committee, CECA**

"The results of ISH China & CIHE 2025 were highly satisfactory. The product zones were thoughtfully organised with detailed presentations, highlighting various cutting-edge products. The overall feedback was very positive, and the visitors demonstrated a high level of professionalism. Among them, the Gas Wall-Hung Boilers Industry G20 Products Section was especially popular, drawing a large number of visitors, which aligns perfectly with our original intent in planning it. Moving forward, we will focus on refining the arrangements and working alongside the show organiser to support the industry's growth."

**Mr Qi Wang, Director, Gas Heating Specialty Committee of Gas Branch, Society of China Civil Engineering Society**

"ISH China & CIHE stands out for its scale and influence in Asia, bringing together the world's leading brands and their innovative products. Today, the show serves not only as a stage to showcase advancements but also as a platform for gathering industry insights and fostering in-depth exchanges. Through this event, industry players can engage in meaningful dialogue and collaboratively promote technological innovation and sustainable development in the heating industry."

**Mr Hao Liu, Deputy Secretary General, China Construction Metal Structure Association**

"ISH China & CIHE plays a crucial role in communicating new technologies, products, and trends in the industry, showcasing significant progress toward internationalisation. As Asia's leading HVAC event, it captures the industry's dynamics and establishes a strong foundation for promoting innovative breakthroughs and the future development of clean energy technologies."

**Mr Tony Han, Chairman, Clean Energy Application Branch, China Construction Metal Structure Association**

# Fringe events and forums

ISH China & CIHE 2025 partnered with the China District Heating Association to present the "China International Zero Carbon Heating Congress – International Conference on Urban Low-carbon Integrated Energy System and Heating Security". Bringing together experts from local and international government agencies, vocational colleges and universities, and industry associations, the forum explored a range of zero-carbon heating technologies.

The fair featured over 60 fringe events, organised into four categories: interactive forums, solutions seminars, marketing sessions and industry awards. Industry players from across the HVAC market came together to explore pressing topics including zero-carbon heating, urban renewal, industrial and commercial heating, energy storage technologies, energy efficiency and carbon reduction, with a focus on promoting sustainable development and uncovering new market opportunities.

## The preferred launchpad for leading global brands

ISH China & CIHE provides a comprehensive platform for launching and promoting new products. Drawing on the Messe Frankfurt ISH global network and nearly three decades of expertise, the show effectively links new products with buyers, ensuring a reliable, integrated and cross-platform promotional experience for leading brands throughout the international marketplace.

"I shared key figures and insights from the European heat pump industry at the conference. In my opinion, sharing such data is critical for fostering cooperation among different markets. I was very pleased with the audience; the room was full, and participants were highly engaged. It has been a wonderful experience, and I hope this won't be my last visit. I look forward to continuing this type of cooperation in the future.

**Mr Marcin Krupski, Policy Officer,  
European Heat Pump Association**

"ISH China & CIHE 2025 featured a wide array of concurrent activities and forums that addressed nearly every topic in the industry, resulting in a wealth of content. Companies and associations can seize this opportunity to gain insights into the latest innovative technologies, advanced concepts, and academic perspectives. The forums enable direct and efficient communication, greatly enhancing technological progress and development in the heating sector."

**Mr Yi Jiang, Academician,  
Chinese Academy of Engineering**

## Professional industry support

### Co-organisers

- CDHA – China District Heating Association
- China Council for the Promotion of International Trade Construction Industry Sub-council
- Heating and Radiator Committee of China Construction Metal Structure Association
- Gas Heating Application Speciality Committee of China Civil Engineering Society
- Floor-heating Committee of China Construction Metal Structure Association
- China Construction Metal Structure Association Indoor Climate Association
- Clean Energy Application Branch of China Construction Metal Structure Association
- Heat Pump Industry Committee of China Energy Conservation Association
- China Boiler and Boiler Water Treatment Association
- China International Exhibition Center Group Corporation
- Zhejiang Growin International Exhibition & Convention Co Ltd
- Messe Frankfurt (Shanghai) Co Ltd
- CIEC GL events (Beijing) International Exhibition Co Ltd

### Organisers

- Messe Frankfurt (Shanghai) Co Ltd
- CIEC GL events (Beijing) International Exhibition Co Ltd

### Domestic supporters

- China Real Estate Chamber of Commerce
- China Furniture Decoration Chamber of Commerce
- China Furniture Decoration Chamber of Commerce, Furniture & Decoration Committee
- Plumbing Facilities Committee of China Construction Metal Structure Association
- Water Supply and Wastewater Association of China Architectural Society
- China Association of Building Energy Efficiency – Thermal Power and New Energy Industry Branch
- China Ventilation Technology Management Center
- Journal of HV&AC

### Overseas supporters

- BDH – Federation of German Heating Industry
- DBDH – Danish Board of District Heating
- EHI – The Association of the European Heating Industry
- FGK – Association of Air Conditioning and Ventilation in Buildings
- WPC – World Plumbing Council

Messe Frankfurt is the organiser of the world's leading trade fair for HVAC + Water, ISH, held in Frankfurt, Germany. In China, Messe Frankfurt (Shanghai) Co Ltd and CIEC GL events (Beijing) International Exhibition Co Ltd collaborate to organise ISH China & CIHE in Beijing, one of the region's largest HVAC and sanitation exhibitions. ISH Shanghai & CIHE – Shanghai International Exhibition for Heating, Ventilation, Air Conditioning, and Home Comfort Equipment is another major exhibition within the same network.
